Program Description:

This one-day event will help service providers to expand their knowledge and have a better understanding of the dynamics of interpersonal violence. The goal is to provide quality, local training on family violence issues for participants from the Upstate target population. Ultimately, the desired outcome would be to increase victim safety and offender accountability. They would like to reduce the number of domestic violence, child abuse and sexual assault/abuse victims in the community through increased collaboration, understanding and communication between those organizations that assist victims. In addition, there will be exhibits from organizations, vendors of interest, etc., and the opportunity of networking with other service providers.
