### **Training Overview**

This webinar will provide an overview of the multiple and complex intersections of human trafficking with sexual and intimate partner violence. The discussion will focus around basic dynamics and prevalence of human trafficking, with a focus on the multiple ways in which service providers may encounter a human trafficking survivor while providing services around other needs. The presentation will also discuss some basic screening tools and questions that can be asked to clarify the exact needs of someone who may be experiencing, or have experienced in the past, human trafficking as a part of the sexual or intimate partner violence for which they are currently seeking assistance.
